

SIX DAYS CONTINUED MEDICAL EDUCATION PROGRAMME
ON
RESPIRATORY, LIFESTYLE DISORDERS & GASTROINTESTINAL DISORDERS
RESPIRATORY DISEASES

Topic	Speaker
Bronchial asthma – Etiology, diagnostic signs & symptoms, investigations, prevention, rehabilitation, disease management; recent advances in the diagnosis & management of Bronchial asthma.	Any experienced Chest Specialist
Role of Homoeopathic medicines in treatment of Bronchial asthma including acute episodes. A few important researches done in the treatment of Bronchial asthma through Homoeopathy.	Any experienced Homoeopathic practitioner
Acute Bronchitis – risk factors, clinical features, investigations, diseases management; recent advance in the diagnosis & management of Acute bronchitis.	Any experienced Chest Specialist
Role of Homoeopathic medicines in treatment of Acute bronchitis. A few important researches done in the treatment of Acute Bronchitis through Homoeopathy.	Any experienced Homoeopathic practitioner

Topic	Speaker
Upper Respiratory Tract Infections Acute coryza, tracheobronchitis, laryngitis, influenza- clinical features, complications, management; recent advances in the diagnosis & management of Upper Respiratory Tract Infections.	Any experienced Chest Specialist
Role of Homoeopathy in the treatment of upper respiratory tract infections. Outcome of a few clinical research trials in upper respiratory tract infections through Homoeopathy.	Any experienced Homoeopathic practitioner
COPD – Chronic bronchitis & Emphysema; Causes, patho – physiology, clinical features, investigations, management, preventive measures; recent advances in the diagnosis & management of COPD.	Any experienced Chest Specialist
Scope & Limitations of Homoeopathy in the management of COPD; homoeopathic therapeutics of COPD, outcome of a few homoeopathic clinical trials in COPD.	Any experienced Homoeopathic practitioner

LIFESTYLE DISORDERS

Topic	Speaker
Essential Hypertension – Classification of HT, risk factors, patho-physiology, importance of family history & lifestyle, diagnosis, prevention, diseases management & complications; recent advances in the diagnosis & management of Hypertension.	Any specialist from modern medicine.
Scope and limitations of homoeopathy in treatment of Hypertension; homoeopathic therapeutics of hypertension.	Any experienced Homoeopath
Coronary Artery Disease (CAD) - Risk factors, patho-physiology, clinical presentation, prevention, management, dietary recommendations & complications; recent advances in diagnosis & management of CAD.	Any cardiology specialist
Scope and limitations of homoeopathy in treatment of coronary artery disease; outcome of a few clinical research trials in CAD through homoeopathy.	Any experienced Homoeopath

Topic	Speaker
Cervical spondylosis – causes, path-physiology, diagnostic sign and symptoms, complications, management, modifying factors, recent advances in the diagnosis & management of Cervical spondylosis.	Any orthopedic specialist
Scope and limitations of homoeopathy in treatment of Cervical spondylosis; homoeopathic therapeutics of Cervical spondylosis	Any experienced Homoeopath practitioner
Non Insulin Dependent Diabetes mellitus (Type II) – risk factors, patho-physiology, diagnosis, prevention, management, dietary recommendations & complications. Recent advances in the diagnosis and management of Non Insulin Dependent Diabetes mellitus.	Any experienced Diabetologist
Scope and limitations of homoeopathy in treatment of Diabetes mellitus; outcome of a few clinical research trials in Diabetes mellitus through homoeopathy.	Any experienced Homoeopath practitioner

Gastro Intestinal Disorders

Topic	Speaker
Irritable Bowel Syndrome- etiology, patho-physiology, clinical features, diagnosis, Differential diagnosis management; recent advances in the diagnosis & management of Irritable Bowel Syndrome.	Any experienced GIT specialist
Role of Homoeopathy in the treatment of Irritable Bowel Syndrome. Outcome of a few clinical research trial in Irritable Bowel Syndrome through Homoeopathy.	Any experienced Homoeopathic practitioner
Gastroenteritis & Dysentery – a etiology, Clinical features, diagnosis, differential diagnosis, care at home, prevention, management, recent advances in the diagnosis & management of gastroenteritis & Dysentery.	Any experienced GIT specialist
Role of Homoeopathy in the treatment of gastroenteritis & Dysentery including therapeutics. Outcome of a few clinical research trials in gastroenteritis & Dysentery through Homoeopathy.	Any experienced Homoeopathic practitioner

Topic	Speaker
Haemorrhoids- Causes, patho-physiology, clinical features, investigations, management, preventive measures; recent advances in the diagnosis & management of Haemorrhoids.	Any experienced GIT specialist
Role of Homoeopathy in the treatment of Hemorrhoids. Outcome of a few clinical research trials in Haemorrhoids through Homoeopathy.	Any experienced Homoeopath practitioner
Acid peptic disease- Dyspepsia, Gastritis, Gastro esophageal reflux (GER), Peptic Ulcer disease; Causes, patho-physiology, clinical features, investigations, management, preventive measure; recent advances in the diagnosis & management of Acid peptic disease.	Any experienced GIT specialist
Scope and limitations of homoeopathy in the management of APD; homoeopathic therapeutics of APD; homoeopathic therapeutics of APD, outcome of a few homoeopathic clinical trials in APD.	Any experienced Homoeopath practitioner
